## Chapter 1 Introduction

|                                         |   |
|-----------------------------------------|---|
| Who The Book Is For .....               | 1 |
| What's in this book.....                | 1 |
| System Language.....                    | 2 |
| Developing in Service Manager.....      | 2 |
| System Navigator .....                  | 2 |
| Document Engine .....                   | 2 |
| How Process Works .....                 | 2 |
| Basic Techniques .....                  | 2 |
| Data Techniques.....                    | 2 |
| Usability Techniques.....               | 2 |
| System Techniques.....                  | 2 |
| Understanding files.....                | 3 |
| Debugging Service Manager .....         | 3 |
| Using Clocks.....                       | 3 |
| Adding a New Module .....               | 3 |
| Sample Feature: Code Editor .....       | 3 |
| Sample Feature: Training Module .....   | 3 |
| Sample Feature: Assignment Engine ..... | 3 |
| Sample Requirement.....                 | 3 |
| Screen Design Standards .....           | 4 |
| Conventions Used in The Book.....       | 4 |
| How to Contact Us .....                 | 5 |

## Chapter 2 System Language

|                                  |    |
|----------------------------------|----|
| Variables .....                  | 7  |
| Creating variables .....         | 8  |
| Nulls.....                       | 9  |
| Key points about variables ..... | 9  |
| Naming conventions .....         | 9  |
| Variable pools.....              | 9  |
| Global .....                     | 10 |
| Thread .....                     | 10 |
| Local.....                       | 10 |

|                                           |           |
|-------------------------------------------|-----------|
| Reserved words.....                       | 10        |
| <b>Basic data types .....</b>             | <b>10</b> |
| Character.....                            | 10        |
| Number.....                               | 11        |
| Date/time .....                           | 11        |
| Logical .....                             | 13        |
| Labels.....                               | 13        |
| <b>Compound.....</b>                      | <b>13</b> |
| Array.....                                | 13        |
| Advanced: Structure .....                 | 14        |
| <b>File or record data type.....</b>      | <b>16</b> |
| <b>Expressions.....</b>                   | <b>17</b> |
| <b>Arithmetic expressions.....</b>        | <b>17</b> |
| Addition (+) .....                        | 17        |
| Subtraction (-).....                      | 17        |
| Multiplication (*) .....                  | 17        |
| Division (/).....                         | 17        |
| Exponentiation (^).....                   | 18        |
| Modulus (%) .....                         | 18        |
| <b>String and array expressions .....</b> | <b>18</b> |
| <b>Logical expressions .....</b>          | <b>18</b> |
| Relational operators.....                 | 18        |
| Logical operators .....                   | 19        |
| <b>Statements .....</b>                   | <b>20</b> |
| Assignment .....                          | 20        |
| FOR loop .....                            | 20        |
| IF THEN statement.....                    | 20        |
| IF THEN ELSE statement .....              | 21        |
| WHILE DO statement.....                   | 21        |
| Syntax.....                               | 21        |
| <b>RAD Functions .....</b>                | <b>22</b> |
| <b>Queries .....</b>                      | <b>26</b> |
| The true query.....                       | 26        |
| False query.....                          | 26        |
| NULL query .....                          | 26        |
| Query on a Field .....                    | 26        |
| Compound queries.....                     | 26        |
| Wildcards .....                           | 27        |

|                  |    |
|------------------|----|
| Javascript ..... | 27 |
|------------------|----|

## **Chapter 3 Developing in Service Manager**

|                                     |           |
|-------------------------------------|-----------|
| <b>Service Manager objects.....</b> | <b>30</b> |
|-------------------------------------|-----------|

|                              |           |
|------------------------------|-----------|
| <b>Naming standards.....</b> | <b>30</b> |
|------------------------------|-----------|

|                            |           |
|----------------------------|-----------|
| <b>Naming objects.....</b> | <b>30</b> |
|----------------------------|-----------|

|                      |    |
|----------------------|----|
| dbdicts rules: ..... | 31 |
|----------------------|----|

|                                               |    |
|-----------------------------------------------|----|
| Format, link, and format control rules: ..... | 31 |
|-----------------------------------------------|----|

|                  |    |
|------------------|----|
| Menu rules:..... | 31 |
|------------------|----|

|                           |    |
|---------------------------|----|
| Other object rules: ..... | 31 |
|---------------------------|----|

|                                     |           |
|-------------------------------------|-----------|
| <b>Development environment.....</b> | <b>32</b> |
|-------------------------------------|-----------|

|                        |           |
|------------------------|-----------|
| <b>Production.....</b> | <b>32</b> |
|------------------------|-----------|

|                  |           |
|------------------|-----------|
| <b>Test.....</b> | <b>32</b> |
|------------------|-----------|

|                          |           |

| <b>Process details</b> .....               | <b>39</b> |
| Submitting a Requirement: .....            | 39        |
| Reviewing User Requests: .....             | 39        |
| The User's Group Meeting:.....             | 40        |
| The SST Developer .....                    | 40        |
| <b>Software Change Request</b> .....       | <b>40</b> |
| <b>User requirements</b> .....             | <b>40</b> |

## Chapter 4 System Navigator

|                                                |           |
|------------------------------------------------|-----------|
| <b>Maneuvering the system Navigator</b> .....  | <b>42</b> |
| Favorites and Dashboards.....                  | 42        |
| Menu Navigation.....                           | 42        |
| <b>Changing Favorites and Dashboards</b> ..... | <b>43</b> |
| Query Definition.....                          | 45        |
| Audience.....                                  | 45        |
| Normalize Queries.....                         | 46        |
| <b>Editing a Favorites</b> .....               | <b>47</b> |
| Add a new view .....                           | 47        |
| Viewing Selections .....                       | 48        |
| <b>Double Clicking a Favorite</b> .....        | <b>48</b> |
| <b>Viewing properties</b> .....                | <b>49</b> |
| Dashboards.....                                | 49        |
| Folders .....                                  | 52        |

## Chapter 5 Document Engine

|                                   |           |
|-----------------------------------|-----------|
| <b>Background</b> .....           | <b>55</b> |
| <b>Basics</b> .....               | <b>55</b> |
| <b>Creating the Display</b> ..... | <b>56</b> |
| Displaying a Search State.....    | 56        |
| Displaying the Open State .....   | 57        |
| Displaying a List .....           | 58        |
| Displaying a Single Record .....  | 59        |
| <b>Database operations</b> .....  | <b>60</b> |

|                                         |           |
|-----------------------------------------|-----------|
| <b>security .....</b>                   | <b>62</b> |
| <b>Category.....</b>                    | <b>62</b> |
| <b>Phase.....</b>                       | <b>62</b> |
| <b>Page history.....</b>                | <b>63</b> |
| <b>Alerts .....</b>                     | <b>63</b> |
| <b>files used by alerts .....</b>       | <b>63</b> |
| Object .....                            | 63        |
| Alert .....                             | 63        |
| AlertDef.....                           | 63        |
| notification .....                      | 64        |
| Alertlog .....                          | 64        |
| category.....                           | 64        |
| phase.....                              | 64        |
| <b>Setting the alert .....</b>          | <b>64</b> |
| <b>Processing the alert .....</b>       | <b>65</b> |
| <b>Activities .....</b>                 | <b>65</b> |
| <b>SC Manage.....</b>                   | <b>65</b> |
| <b>Notifications .....</b>              | <b>65</b> |
| <b>Approvals.....</b>                   | <b>65</b> |
| <b>Files .....</b>                      | <b>65</b> |
| ApprovalDef.....                        | 66        |
| Approval .....                          | 66        |
| ApprovalLog .....                       | 66        |
| <b>Approval Process .....</b>           | <b>66</b> |
| Setup .....                             | 66        |
| Group action.....                       | 66        |
| <b>Locking .....</b>                    | <b>66</b> |
| <b>Document Engine Techniques .....</b> | <b>66</b> |
| <b>Setting up page history.....</b>     | <b>66</b> |
| <b>Adding alerts.....</b>               | <b>69</b> |

## **Chapter 6 How Process Works**

|                                                      |           |
|------------------------------------------------------|-----------|
| <b>Executing a Process.....</b>                      | <b>73</b> |
| <b>Adding a displayoption to call a Process.....</b> | <b>73</b> |

|                                              |           |
|----------------------------------------------|-----------|
| Calling a Process From a Displayoption ..... | 75        |
| Calling a Process from Format Control.....   | 76        |
| <b>When to Use Process .....</b>             | <b>77</b> |
| Eliminating Duplicates .....                 | 79        |

## Chapter 7 Basic Techniques

|                                                                       |            |
|-----------------------------------------------------------------------|------------|
| <b>Mandatory Fields .....</b>                                         | <b>82</b>  |
| <b>Enforcing an entry of Any Value .....</b>                          | <b>82</b>  |
| Example 1: Using format control.....                                  | 82         |
| Example 2: Using Data Policy .....                                    | 83         |
| <b>Enforcing valid values with a combo box .....</b>                  | <b>84</b>  |
| <b>Enforcing with a FILL .....</b>                                    | <b>86</b>  |
| Example 1: Using Queries in format control .....                      | 86         |
| Example 2: Using RTECALLS in format control .....                     | 87         |
| Example 3: Using data policy .....                                    | 88         |
| <b>Enforcing an entry within a range.....</b>                         | <b>89</b>  |
| Example 1: Using validations in format control .....                  | 89         |
| Example 2: Using calculations and validations in format control ..... | 90         |
| <b>Conditional enforcement .....</b>                                  | <b>92</b>  |
| <b>Formatting for display .....</b>                                   | <b>92</b>  |
| <b>Formatting a telephone number .....</b>                            | <b>92</b>  |
| <b>Formatting a Payroll number.....</b>                               | <b>94</b>  |
| <b>Formatting money .....</b>                                         | <b>96</b>  |
| <b>Formatting dates .....</b>                                         | <b>96</b>  |
| <b>Displaying time only.....</b>                                      | <b>98</b>  |
| <b>Disallowing special characters in a field.....</b>                 | <b>99</b>  |
| <b>Creating a dropdown list.....</b>                                  | <b>101</b> |
| Example 1: Use format control .....                                   | 101        |
| Example 2: Use globallists.....                                       | 102        |
| <b>Calculating a value .....</b>                                      | <b>103</b> |
| <b>Removing seconds from a time .....</b>                             | <b>104</b> |
| <b>Separating first and last names .....</b>                          | <b>105</b> |
| <b>Capitalize first letter of a string .....</b>                      | <b>107</b> |
| <b>Remove unwanted characters.....</b>                                | <b>108</b> |
| <b>Security .....</b>                                                 | <b>109</b> |
| <b>Restricting access to a file .....</b>                             | <b>109</b> |
| <b>Restricting access to certain records.....</b>                     | <b>110</b> |
| <b>Hiding data .....</b>                                              | <b>111</b> |
| Example 1: Use format control .....                                   | 111        |

|                                  |     |
|----------------------------------|-----|
| Example 2: Use data policy ..... | 112 |
| Example 3: Use DVD.....          | 113 |

## Chapter 8 Data Techniques

|                                            |            |
|--------------------------------------------|------------|
| <b>Working with arrays.....</b>            | <b>115</b> |
| Eliminating duplicates from an array.....  | 115        |
| Sorting an array .....                     | 117        |
| Making a single string from an array ..... | 118        |
| Making an array from a single string ..... | 119        |
| Build difference lists .....               | 120        |
| <b>Queries .....</b>                       | <b>123</b> |
| Controlling fields to query on.....        | 123        |
| Scripting a query .....                    | 124        |
| Searching any place in a record.....       | 126        |
| Find string application .....              | 127        |
| <b>Auditing.....</b>                       | <b>128</b> |
| Keeping a list of who and when .....       | 128        |
| Maintaining an audit log.....              | 130        |
| Keeping a copy of selected data .....      | 133        |
| Maintaining a complete audit .....         | 136        |
| <b>Time .....</b>                          | <b>139</b> |
| End of the day.....                        | 139        |
| Assignment clocks.....                     | 141        |
| Calculate with calendar.....               | 144        |
| <b>Manipulating data .....</b>             | <b>144</b> |
| Updating associated records .....          | 144        |
| Data policy .....                          | 146        |

## Chapter 9 Usability Techniques

|                                                    |            |
|----------------------------------------------------|------------|
| <b>Working with links .....</b>                    | <b>149</b> |
| Multiple fields to build the fill query .....      | 150        |
| Virtual joins .....                                | 153        |
| Virtual join list with add/update capability ..... | 155        |
| Add query to virtual join .....                    | 158        |
| Showing a count of software.....                   | 159        |
| Filling into an array with a query.....            | 160        |
| Fill into a structure .....                        | 163        |
| Fill from different files .....                    | 164        |

|                                        |            |
|----------------------------------------|------------|
| VIP message .....                      | 165        |
| <b>Login .....</b>                     | <b>167</b> |
| Login pop-up survey .....              | 167        |
| <b>User interface .....</b>            | <b>171</b> |
| Temporary check boxes.....             | 171        |
| User-defined inbox.....                | 171        |
| Product type.....                      | 175        |
| Use a Table for Mandatory fields ..... | 177        |
| Universal Code Table .....             | 180        |
| Password reset.....                    | 182        |

## Chapter 10 System Techniques

|                                          |            |
|------------------------------------------|------------|
| <b>System .....</b>                      | <b>187</b> |
| Custom bitmaps .....                     | 187        |
| Mandanten.....                           | 189        |
| Copying a file.....                      | 190        |
| Causing an Abend .....                   | 191        |
| Custom Excel Feed .....                  | 192        |
| Create a New Macro Type .....            | 199        |
| <b>Notifications .....</b>               | <b>200</b> |
| On Screen Messages .....                 | 200        |
| Email an individual .....                | 203        |
| Send a future email .....                | 205        |
| Use Email for Paging.....                | 207        |
| <b>Calling windows applications.....</b> | <b>209</b> |
| From a menu .....                        | 209        |
| From format control .....                | 210        |
| From displayoption .....                 | 210        |
| <b>Miscellaneous.....</b>                | <b>211</b> |
| Find RAD Parameter Values .....          | 211        |
| Fill in Catalog info .....               | 213        |
| Show Names in a List.....                | 217        |
| <b>Trigger Applications .....</b>        | <b>218</b> |
| How triggers work .....                  | 218        |
| Adding a trigger.....                    | 218        |
| trigger.apm.expire .....                 | 219        |
| trigger.counter .....                    | 219        |

|                             |            |
|-----------------------------|------------|
| trigger.invoke.auditor..... | 219        |
| trigger.event.record.....   | 219        |
| trigger.stamp.record .....  | 220        |
| <b>Schedules .....</b>      | <b>220</b> |
| Schedule set up .....       | 220        |
| us.count.connections .....  | 220        |
| us.calc.delta .....         | 221        |
| <b>IOEVENTS .....</b>       | <b>222</b> |
| Defining an ioevent .....   | 222        |
| Calling ioevents .....      | 222        |
| Defining an Action .....    | 222        |
| Setting up ioevents .....   | 223        |
| Key points .....            | 223        |

## Chapter 11 Understanding Files

|                                        |            |
|----------------------------------------|------------|
| <b>The File Structure .....</b>        | <b>225</b> |
| dbdict.....                            | 225        |
| The dbdict view.....                   | 226        |
| Data Policy .....                      | 228        |
| <b>The System Navigator view .....</b> | <b>228</b> |
| <b>Other control files .....</b>       | <b>230</b> |
| Object .....                           | 230        |
| joindef.....                           | 231        |
| Using page records.....                | 232        |
| Common name.....                       | 232        |
| Cascade updates .....                  | 232        |
| Example.....                           | 233        |

## Chapter 12 Debugging Service Manager

|                                      |            |
|--------------------------------------|------------|
| <b>General Troubleshooting .....</b> | <b>235</b> |
| Understand the problem .....         | 235        |
| Analyze the problem .....            | 235        |
| Isolate the problem.....             | 236        |
| Identify the cause .....             | 236        |
| Fix the problem.....                 | 236        |
| Test.....                            | 236        |
| <b>Using the debugger .....</b>      | <b>236</b> |

|                                                              |            |
|--------------------------------------------------------------|------------|
| Starting the debugger .....                                  | 236        |
| Finding the screen id .....                                  | 238        |
| Viewing displayscreen record .....                           | 238        |
| <b>Format control.....</b>                                   | <b>239</b> |
| Conditions.....                                              | 239        |
| Syntax problems.....                                         | 239        |
| Logic problems.....                                          | 240        |
| Queries .....                                                | 241        |
| Calculations .....                                           | 241        |
| JavaScript .....                                             | 241        |
| Validations .....                                            | 242        |
| Subroutines.....                                             | 242        |
| Common problems .....                                        | 242        |
| <b>Links .....</b>                                           | <b>243</b> |
| <b>Fills/finds.....</b>                                      | <b>243</b> |
| Button is grayed out.....                                    | 243        |
| No results of a fill .....                                   | 243        |
| The fill cannot be performed .....                           | 243        |
| Nothing fills in after selecting from the list.....          | 243        |
| The wrong field fills in after selecting from the list ..... | 244        |
| Viewing the query .....                                      | 244        |
| <b>Virtual joins .....</b>                                   | <b>244</b> |
| No link record .....                                         | 244        |
| Using a format name instead of a file name .....             | 244        |
| Incorrect or missing format .....                            | 244        |
| No data displayed.....                                       | 244        |
| Wrong field name in the link .....                           | 245        |
| <b>Macros.....</b>                                           | <b>245</b> |
| <b>Check the condition .....</b>                             | <b>245</b> |
| Statements with \$L.new only .....                           | 245        |
| Statements with \$L.old .....                                | 245        |
| <b>Scheduler issues .....</b>                                | <b>247</b> |
| <b>Scheduler Process .....</b>                               | <b>247</b> |
| Running a schedule record .....                              | 248        |
| <b>Problems with Process .....</b>                           | <b>248</b> |
| <b>Displayoptions .....</b>                                  | <b>249</b> |
| <b>Stack overflow.....</b>                                   | <b>249</b> |

|                                            |            |
|--------------------------------------------|------------|
| <b>Viewing a format genout .....</b>       | <b>249</b> |
| <b>Login problems .....</b>                | <b>251</b> |
| Logging in .....                           | 251        |
| Login Techniques .....                     | 251        |
| <b>Common (and uncommon) problems.....</b> | <b>252</b> |
| Data problems.....                         | 252        |
| Query not returning record.....            | 252        |
| Display problems.....                      | 252        |
| Entering statements .....                  | 252        |

## **Chapter 13 Using Clocks**

|                                           |            |
|-------------------------------------------|------------|
| <b>Service Manager Clocks .....</b>       | <b>255</b> |
| Clocks using applications .....           | 257        |
| <b>Clocks Using Code.....</b>             | <b>258</b> |
| Starting a clock .....                    | 258        |
| Stopping a clock .....                    | 259        |
| <b>Using pmstatus .....</b>               | <b>260</b> |
| <b>Using pmstatus with any file .....</b> | <b>261</b> |
| Example.....                              | 261        |

## **Chapter 14 Adding a Module**

|                                            |            |
|--------------------------------------------|------------|
| <b>Designing the module .....</b>          | <b>267</b> |
| Database file .....                        | 267        |
| Formats .....                              | 268        |
| <b>Integration .....</b>                   | <b>268</b> |
| Able to relate to other modules.....       | 268        |
| Can be displayed in an inbox.....          | 268        |
| Has an open process.....                   | 268        |
| Has an update process.....                 | 268        |
| Has a close process .....                  | 268        |
| Uses the advanced search feature .....     | 269        |
| <b>Steps to create the module .....</b>    | <b>269</b> |
| <b>Basic file definition.....</b>          | <b>269</b> |
| Create a dbdict .....                      | 269        |
| <b>Formats/format controls/links .....</b> | <b>270</b> |
| Master format control/link .....           | 270        |
| View format.....                           | 272        |

|                                                  |            |
|--------------------------------------------------|------------|
| View format control.....                         | 273        |
| View link .....                                  | 274        |
| Open format/format control/link .....            | 274        |
| Open format.....                                 | 274        |
| Open format control.....                         | 275        |
| Open link .....                                  | 276        |
| Close format .....                               | 276        |
| Close format control.....                        | 277        |
| Close link.....                                  | 277        |
| Search format.....                               | 277        |
| Search format control .....                      | 278        |
| Search link.....                                 | 278        |
| QBE format.....                                  | 279        |
| Manager format .....                             | 279        |
| <b>Process definitions .....</b>                 | <b>281</b> |
| Initial Process .....                            | 281        |
| Open Process.....                                | 282        |
| Update Process .....                             | 282        |
| Close Process .....                              | 283        |
| Search Process .....                             | 283        |
| <b>Manager integration .....</b>                 | <b>283</b> |
| Add screlconfig record.....                      | 284        |
| <b>Create displayscreens .....</b>               | <b>284</b> |
| View screen .....                                | 284        |
| Open screen.....                                 | 285        |
| Close screen.....                                | 286        |
| Search screen .....                              | 287        |
| List screen .....                                | 288        |
| Add manage options.....                          | 290        |
| <b>Create States records .....</b>               | <b>291</b> |
| View State .....                                 | 291        |
| List State.....                                  | 291        |
| Open State .....                                 | 291        |
| Close State.....                                 | 292        |
| Search State.....                                | 292        |
| <b>Create the Object record.....</b>             | <b>292</b> |
| <b>Create a search configuration record.....</b> | <b>293</b> |
| <b>Setup the environment.....</b>                | <b>293</b> |
| <b>Number .....</b>                              | <b>293</b> |
| <b>Test the module .....</b>                     | <b>294</b> |
| Unload .....                                     | 295        |

## **Chapter 15 Sample Feature: Code Editor**

|                                     |            |
|-------------------------------------|------------|
| <b>How it Works .....</b>           | <b>297</b> |
| <b>Example .....</b>                | <b>298</b> |
| <b>How the Compiler Works .....</b> | <b>306</b> |
| <b>Possible Enhancements .....</b>  | <b>308</b> |

## **Chapter 16 Sample Feature: Training Module**

|                                             |            |
|---------------------------------------------|------------|
| <b>How it Works .....</b>                   | <b>309</b> |
| <b>Courses .....</b>                        | <b>310</b> |
| <b>User records .....</b>                   | <b>313</b> |
| <b>Lessons.....</b>                         | <b>314</b> |
| <b>Selecting and showing a course .....</b> | <b>320</b> |
| <b>Script to present the lessons .....</b>  | <b>321</b> |
| <b>Quizzes.....</b>                         | <b>331</b> |
| <b>Dbdict for quizzes.....</b>              | <b>331</b> |
| <b>Selecting and showing a quiz.....</b>    | <b>335</b> |
| <b>Define the scripts .....</b>             | <b>335</b> |
| <b>menu.....</b>                            | <b>343</b> |
| <b>Creating the menu .....</b>              | <b>343</b> |
| <b>Create the stored queries .....</b>      | <b>343</b> |
| <b>Using the Training module .....</b>      | <b>344</b> |
| <b>Creating a course .....</b>              | <b>344</b> |
| <b>Creating a Quiz .....</b>                | <b>344</b> |
| <b>Unload .....</b>                         | <b>345</b> |

## **Chapter 17 Sample Feature: Assignment Engine**

|                                             |            |
|---------------------------------------------|------------|
| <b>How it Works .....</b>                   | <b>348</b> |
| <b>Creating the Assignment Engine .....</b> | <b>348</b> |
| <b>Customizing the Engine .....</b>         | <b>355</b> |
| <b>Use lookup only.....</b>                 | <b>355</b> |
| <b>Change the fields in the table.....</b>  | <b>356</b> |
| <b>To remove a field:.....</b>              | <b>356</b> |

|                      |     |
|----------------------|-----|
| To add a field:..... | 356 |
|----------------------|-----|

## **Chapter 18 Sample Requirement**

|                                           |            |
|-------------------------------------------|------------|
| <b>Classes of modifications .....</b>     | <b>359</b> |
| <b>Format and validation changes.....</b> | <b>361</b> |
| New formats.....                          | 361        |
| Modified formats.....                     | 361        |
| <b>Functional changes .....</b>           | <b>361</b> |
| New functions .....                       | 361        |
| Modify existing functions .....           | 362        |
| Notifications.....                        | 362        |
| <b>Data changes.....</b>                  | <b>362</b> |
| Changes to data.....                      | 362        |
| New data.....                             | 363        |

## **Chapter 19 Screen Design Standards**

|                              |            |
|------------------------------|------------|
| <b>Background .....</b>      | <b>365</b> |
| <b>Design standard .....</b> | <b>365</b> |
| General .....                | 365        |
| Font.....                    | 366        |
| Labels .....                 | 366        |
| Input fields .....           | 366        |
| Array Field.....             | 367        |
| Multi-line text boxes .....  | 367        |
| Frames.....                  | 367        |
| Tables .....                 | 368        |
| Notebooks.....               | 368        |
| Radio buttons .....          | 369        |
| QBE lists.....               | 369        |
